Resident Evil 4 Ultimate HD Edition &. Resident Evil 4 Ultimate HD Edition &. Resident Evil 4 Ultimate. at the online role-playing game based in Second Life. It was released in Japan on January 22, 2009. Reception Ludonarrative Dissonance was well received by critics. Famitsu's vote for the PlayStation Portable, Famitsu Awards for Xbox 360, PlayStation 3, Windows, and DS. Famitsu staff voted 10–9–10–8–12 in a highly favorable ballot for the PSP version. The Xbox 360 version ranked 8th on the magazine's PS3 voting. It was the only console with more than three votes. The PlayStation 3, Windows, and DS rankings were unanimous favorable, the second time each had unanimous favorable rankings in the magazine's history. In a Japanese review, Famitsu gave the game a rating of 33 out of 40. Ludonarrative Dissonance has been praised by many publications as well. The Japanese gaming magazine Edge gave the game a rave review, describing it as "a seminal title in the genre", and adding: "A triumph for a niche player like Telltale, it's the kind of achievement that shows what an indie studio is capable of." PC Gamer, in a 4.5/5 review, suggested that LDM combines aspects of modern games such as entertainment, narrative and exploration, but also that the game works well as a spiritual successor to System Shock. They also praised the
