I don't want to be too presumptuous because the guy at the counter isn't my God, but it seems like I'm screwed from the second I began in this conversation with Mrs. God? I mean, sure the oink sounds good to her and all, but seriously, don't we have a rep as evangelists for Jesus for a reason? These are the editing rules that I have set up for this wiki; please adhere to them as much as possible: Quotes: Always, and I mean always, quote the source of your information. If you do not, expect to be flamed. This is not a Wikipedia, as much as I would love to be famous for what I write here, and if everyone did not quote, well, then, we would have to lower the standards, and then I would be back in my oink hall. If you do not like this rule, then do not use this wiki. Excessive Flaming: I will not allow flaming unless the user incurs foul language first. If you are abusive, and have profanity, but are not abusive, you can expect to have the flamage taken from you. I don't want to hear any of 3ef4e8e8d
