Carl Eriksson.  
Hardware on loan  
is very useful in

---

teaching, and one of the most common reasons for purchasing new equipment is to get a lesson in how it works. This machine was very easy to set up. I

---

just plugged it  
in, opened the  
box, and started  
clicking buttons.  
First thing I did  
was to upgrade to  
the latest release  
of Silverlight,  
which is part of

---

the Windows Azure  
Service Fabric  
Runtime. I decided  
to use my  
configuration  
machine because it  
was already set up  
and I wanted to  
quickly spin up a

---

configuration node for testing. To do this, I modified the `host.json` in the `bin` folder of my configuration machine, added a host name to it, and then pointed

---

to this host from the command line. Here is my host.json file for the configuration node: Previously, when I started a new configuration machine for Azure,

---

the configuration  
ran on a VM with a  
size of 5GB. For  
some reason, when  
I stopped this  
configuration and  
restarted it to  
spin up a new  
configuration with

---

a different size,  
it was running on  
a VM with a size  
of 8GB. I guess  
that the larger VM  
was used as a data  
store for the  
configuration and  
the smaller VM was

---

used to host the  
configuration  
code. Harald  
Joachim Harald  
Joachim (born 27  
March 1945) is a  
Danish film  
director,  
screenwriter and

---

photographer. He directed the 1990 film, Em and in 1984, he was nominated for an Academy Award for Best Live Action Short for his film, Hair,

---

written by John  
Barry. Life and  
career Born in  
Copenhagen,  
Denmark, Joachim  
graduated from the  
Royal Danish  
Theatre's School  
of Acting in 1969

---

and has acted in several films and TV series. In 1980, Joachim directed the short film (How to Jump on a Train) which won the First Prize at the in

---

Berlin. The short is also the first film by the Danish director. Em was based on the film of the same name by Lars
