Turbine Sound Studios is proud to present the Airbus 330 Trent-700 HD SoundPackage for FSX, recorded in HD High. This... this... this. something crazy, something you have to hear, something you will never hear. This is the sound you would expect from an airplane flying around the world. This is a sound that you can never hear in real life. This is a sound that you can never hear from another plane. It's a sound you've never heard before. And it's taken from a real plane. Just turn it on and feel it. And listen. See. Enjoy. But only in HD High.
