Clean Internet history with multiple choices, such as erase AutoComplete data, Windows log files that show visited websites, Internet cache and history. The Windows section shows RAM statistics in a graphical way and cleans Internet traces easily and quickly. Graphical design is simple and easy to use and it provides enough information to speed up your computer. SpeedItUp Extreme includes a free 30 days trial version so users can test its performance before deciding whether to buy the full version or not. From Software. Users reviews Samir DasGupta 16-Mar-2015 Its nice and easy to use, but it didn't work for me. First I didn't see the option of "Clean Internet Traces" on its GUI screen, then I went to its options and clicked on "SpeedItUp Clean Internet Trace" and I was asked for a password. So after a while I gave it the password and it didn't work. Instead of cleaning it said "Error". So I went to the option of "Windows Optimization" and clicked on "Clean up Windows" and again I was asked for a password, so I gave it the password and it didn't work. So I went to the option of "HardDisk SpeedUp" and clicked on "Optimize HardDisk" and again I was asked for a password, so I gave it the password and it didn't work. So I am asking how to optimize the HardDisk. Graham Helweg 28-Aug-2013 I got this program from a website called "Shopperlink.com" it is very good software and I have used it for years with no problems. I find it to be the most powerful program I have ever used. I even use it for my iPhone and iPod Touch. I think that this program is great and one of the best I have ever seen. Fanilou El-Jané 14-Aug-2013 SpeedItUp works fine as far as I can tell. I've been using it for some time now and it doesn't seem to do anything bad to my computer. I don't find any problem with it, so I think it's ok. Program
