I tried the following command, but I was not able to figure out how to add the -r switch: `wc -r mp3file* > filecounts.txt` Would appreciate any guidance. A: You can use this command `find mp3file* -type f | xargs -i mv {}`

/home/yourname/filecounts.txt Q: How do I prevent a user from clicking on a button which opens a new page using ReactJS? I'm developing a ReactJS app and I have a login button on an index page which opens up a new page. When I click on the Login button it redirects me to the new page which also redirects me back to the index page. How can I prevent this? I've tried

`this.props.history.push('/login');` and also `this.props.history.replace('/login');` to redirect back to the index page but it doesn't work. Login A: If you want to redirect user back to index page. `replace({ location: "/" });` On this week's episode of "The Tea Party," Tammy Bruce and Frank Luntz stood on stage at the Freedom Plaza in Washington, D.C. with the crowd chanting "America!" Tammy Bruce and Frank Luntz also made it to the stage so as to talk about the issues surrounding the first day of the Republican National Convention. As "The Tea Party" hosts said in the intro of this week's show, it's been an "old-fashioned" start to the week for the Republicans, including the major and controversial issue of Romney's and the Republican's platform. Luntz first gave his perspective on the platform and the way the Republicans seemed to be changing their views. "I think they've changed their mind in some areas as they went through. I think they looked at what was important to be in there," Luntz stated. "So they had to leave out a number of things because they simply didn't have the votes to stay in a few of the areas of policy." As the conversation continued, Luntz indicated that this
